THE WORLDSKILLS LYON 2024 TEAM IS DELIGHTED TO LAUNCH ITS OFFICIAL NEWSLETTER, TO KEEP YOU INFORMED OF ALL OUR LATEST NEWS!

The Organizing Committee has kicked off the 2024 year with some major steps towards next September's Competition. In January, we officially launched our Volunteers Programme and began recruiting all those who will be joining us on this exceptional adventure.

From 28 January to 2 February, Competition Preparation Week (CPW) took place in Lyon, bringing together over 750 participants, including key stakeholders, Skill Management Teams, Partners and Sponsors, the Organizing Committee, and WorldSkills International. Major events were organized, enabling the WorldSkills community to make significant progress in the run-up to the Competition.

In this third month of the year, discover the WorldSkills Lyon 2024 medals which will be awarded during the Competition.

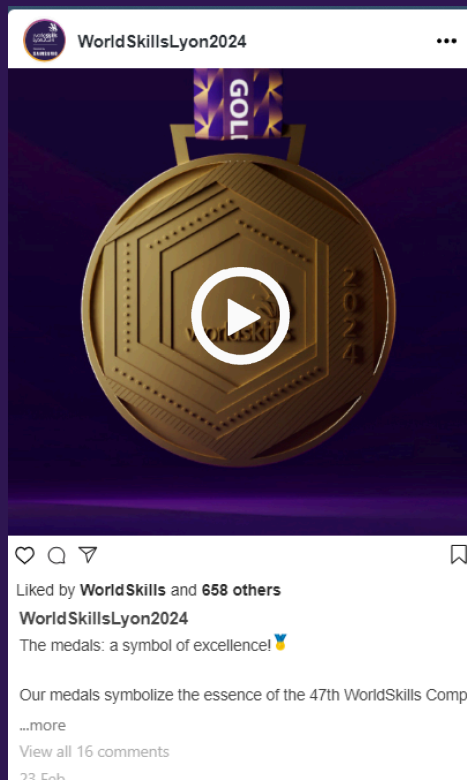

THE MEDALS WERE INSPIRED BY FRANCE AND BY LYON, THE HOST CITY OF THE COMPETITION

"The process of creating the medal was a journey of ideas, a composition of graphic elements each telling a piece of the story. To create is above all to tell something. I wanted to highlight the different aspects of the Competition to shape the object that would bring the story to a perfect conclusion."

Mathias Nirdol, in charge of artistic direction for WorldSkills Lyon 2024
