Days to Go

A strong commitment to a sustainable future

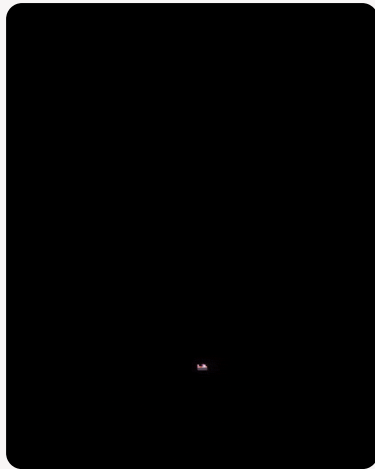

On 22 April, the world celebrated Earth Day, an event that reaffirms a shared commitment to a **sustainable future**. For the WorldSkills Lyon 2024 Organizing Committee, sustainable development is not just a priority, **it's part of our identity**.

The Committee's sustainable development department is in charge of ensuring the implementation of **sustainable practices in all aspects** of the Competition, with dedicated representatives in each department, and in collaboration with external service providers who support us in achieving our objectives.

The Competition marks a real turning point, notably in terms of the WorldSkills Occupational Standards, which now include sustainable practices as an **integral aspect** of demonstrating skills excellence. WorldSkills Lyon 2024 will therefore be the first WorldSkills Competition to assess all Competitors on sustainable practice.

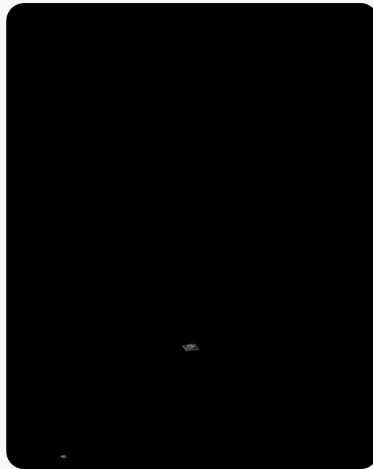

**Find out more about our
sustainability initiatives**

Three of the skills represented at WorldSkills Lyon 2024 are linked to water conversation, respect for natural resources, and biodiversity

Highlights of the launch and opening of our traveling photo exhibition "**Le Bon Geste au Bon Moment**" (the Right Gesture at the Right Time)

📷 The opening of our photo exhibition, which parallels the excellence of sporting and professional gestures, took place on 19 April, during the ASUL Vaulx-en-Velin's handball game against Clermont.

👏 We'd like to extend our warmest thanks to all those who took part in the event.

🗺️ This traveling exhibition, which is part of our Sports & Skills programme, is now making its way to other locations in Lyon. More info coming soon.
